Career Objective

Motivated and responsible Computer Science and Engineering student with foundational knowledge of programming, database management, software analysis, and computer networking. Interested in learning new technologies and applying technical knowledge to solve practical problems. Experienced in teamwork, leadership, event management, volunteering, and public communication.

Education

Bachelor of Science in Computer Science and Engineering — **Expected Graduation: June 2027**
United International University, Dhaka — *89 Credits Completed*

Higher Secondary Certificate (HSC) – Science — **2020**
New Government Degree College, Rajshahi — *GPA: 5.00/5.00*

Secondary School Certificate (SSC) – Science — **2018**
Naogaon Krishnadhan Government High School, Naogaon — *GPA: 5.00/5.00*

Technical Skills

- **Programming Languages:** C, C++, Java
- **Web Technologies:** HTML, CSS, JavaScript, PHP
- **Database:** MySQL, SQL, ER Diagram, Database Design
- **Core Computer Science:** Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, System Analysis and Design, Introductory Artificial Intelligence, Computer Architecture
- **Networking:** Cisco Packet Tracer, IP Addressing, Basic Router and Switch Configuration
- **Tools and Platforms:** Git, GitHub, Visual Studio Code, Canva, Microsoft Word, PowerPoint and Excel

Academic Projects

Fire-Fighting Robot — *Electronics Laboratory*

- Built a basic fire-fighting robot using sensors, motors, electronic components, and a microcontroller.
- Participated in assembling, testing, and demonstrating the robot as part of a team.

Earthquake Safety and Emergency Management Application — *DBMS Laboratory*

- Designed an ER diagram, database schema, tables, and relationships for an earthquake emergency management application.
- Planned database features for affected areas, emergency shelters, rescue information, and user records.

Smart Waste Recycling and Management System — *System Analysis and Design Laboratory*

- Proposed a software-based system to improve waste collection and recycling processes in Bangladesh.
- Prepared system requirements, workflows, user roles, and diagrams for a small-scale implementation.

Mayor's Rise — *Advanced OOP Laboratory*

- Collaborated on a Java-based academic software project using object-oriented programming concepts.
- Contributed to system planning, program structure, data handling, and the implementation of inheritance, encapsulation, and polymorphism.

Leadership, Activities and Volunteering

Deputy Logistics — **2024–Present**
UIU Social Services Club

- Support event logistics, volunteer coordination, material management, and the execution of social-service programmes.

General Member — **2023–Present**
UIU App Forum

- Participate in technology-related activities, workshops, seminars, and collaborative learning programmes.

Founder and Volunteer — **2020–Present**
Personal Social Welfare Initiative

- Organised relief and community-support activities during the COVID-19 pandemic and flood emergencies.
- Supported underprivileged children through educational, welfare, and humanitarian activities.

Student Representative **School Period**
Naogaon Krishnadhan Government High School Cabinet

- Represented students, communicated their concerns, and participated in school programmes and organisational activities.

Soft Skills and Languages

- **Soft Skills:** Leadership, Public Speaking, Teamwork, Event Management, Problem-Solving, Communication, Adaptability and Time Management
- **Languages:** Bangla – Native; English – Intermediate Working Proficiency
